

PEAK MICROFILM VIEWER

The Microfilm Viewer is a convenient and economical handy-sized viewer which insures easy and accurate reading of an aperture card or microfiche. These viewers have their lens aberration corrected over the entire field of view and are designed to be easy on the eye for continuous use. They are also equipped with an adjustable focusing ring. The bright lens and the light admitting aperture allow for excellent observation. The film slot features a device to prevent the film from being scratched when it is inserted into the slot for viewing.

CATALOG #	POWER	FIELD OF VIEW	DIMENSIONS	WEIGHT	PRICE
TS2026-15	15X	.75" (19mm)	5.43 x 1.73 x 1.81" (138 x 44 x 46mm)	3.21 oz. (91g)	\$101.60
