

BAUSCH & LOMB LENSSCOPE™

The Lenscope™ magnifier is a precision, illuminated, examination and inspection tool that fits in the palm of your hand.

Three interchangeable photo-metallic glass measuring reticles are available for use on the 7X & 10X models (specifications listed above).

Features

- Choice of interchangeable Hastings triplet lenses (7X or 10X)
- Ergonomic, off-white plastic body fits easily in a pocket
- Clear, distortion free image
- Two angled illumination lamps (45° or 90° from the viewing angle)
- Hinged-top storage case
